12	2200L (500gal)	50"	72"	510lbs.
12	4500L (1000gal)	50"	144"	1010lbs.

## General Information

HASSCO's single wall tanks are an industry proven, cost effective way to store various new fuels. Best suited for farm and construction applications, these tanks come with 4 threaded openings, fill cap, emergency/normal venting and a lockable spill-box incorporated into the design of the tank. All HASSCO tanks are applied with a rust-inhibiting primer followed by 2 coats of enamel finish in a colour of your choice.
